

## NYU, IT'S ON YOU:

# IT'S TIME FOR A CONTRACT OR A STRIKE

**Well over a year** since a historic 98.4% victory in our December, 2013 election, NYU graduate employees still don't have a contract.

**Well over a year** since NYU agreed with us, in a joint statement from the university and our Union, that unionization "will improve the graduate student experience, and will sustain and enhance NYU's academic competitiveness."

**Well over a year** and still no improvement on our wages, health care, and family benefits.

*We, the undersigned, pledge to organize for a strike in our department until NYU settles a fair contract with GSOC/UAW Local 2110.*
